

LOGAMOL ECT

Dewatering Anti Rust Fluid

LOGAMOL ECT is a general purpose anti rust fluid for corrosion protection of cast iron, steel, tool steel and ferrous metal parts and components.

LOGAMOL ECT raises water off wet metal surface and form an effective anti-corrosion protection film.

LOGAMOL ECT is designed primarily for indoor or in-process short term protection of steel parts and components.

Application

LOGAMOL ECT can be applied by brush, spray or dipping

Packaging

- In 420ml spray cans, 18 liters pails & 209 liters drums.

Advice For Usage

- Keep away from open flame or heating devices

Typical Properties

Characteristics	Test Method	Value
Colour	Visual	Light Brown
Specific Gravity @ 20°C, g/cm ³		0.83
Flash Point		130 °C

Corrosion Protection Duration Guide:

(Below recommendation should be used as a guideline. Customer is advised to conduct test evaluation based on their actual operating conditions and requirement)

Storage Condition	Protection Duration
Indoor	3 months
Outdoor (under sheltered)	1 month

Customer Advice

For further assistance on product MSDS, recommendation or technical queries, please liaise with the regional technical services engineer or contact HQ technical engineers.
