

PETRONAS LOGAMOL ESW 68

General Purpose Slideway / Tableway Oils

Petronas Logamol ESW 68 comprises paraffinics which have a high level of resistance to ageing and good corrosion protection.

The stick-slip effect is avoided by reason of their high capacity for absorbing pressure and their special polar additives (ability to adhere to metal surfaces).

The excellent oxidation resistant and good demulsifying capabilities distinguish Petronas Logamol ESW 68 from other competitive brands and make them suitable for a wide area of applications. Petronas Logamol ESW is free from zinc

Petronas Logamol ESW 68 offer the optimum of wear protection at continuous load and economical consumption.

Typical Properties

Characteristics	Test Method	ESW 68
Appearance	Visual	Brown Clear
Density	D-1298	0.886
Kinematic Viscosity, @ 40°C, cSt	D-445	68
@100°C, cSt	D-445	9.0
Flash Point, °C	D-92	>200

Packaging

- 18 Liters pail, 209 Liters Drum.

Customer Advice
